

Little, Middle, & Big Together Time

Bigger Than a Bread Box

Play a guessing game that requires size comparison and the use of "size words." Start by saying, "I see something smaller than you but larger than my ring." Let your child take a guess. Then help narrow the choices by offering another clue, "I see something smaller than your little brother but larger than the flowerpot." Continue to give clues until your child guesses correctly. Then let your child think of an object and give the clues.

Hi,
We've been using Millie's Math House to learn about size. Maybe you could try one of these activities at home.

Love,
Millie

Silly Me

Cut out a full-length picture of your child from an old photograph. Glue the picture onto a large piece of white paper. Let your child find magazine pictures of hats, shoes, and gloves or mittens. Help cut out these items. Let your child create a funny self-portrait by adding clothing. Talk about the "too big hat," "too little mittens," "just right shirt," and so on. Follow by reading *Goldilocks and the Three Bears* as a bedtime story.
